

## CONTENTS

## EDITOR'S DESK

- 126A Does community-supported agriculture support conservation?**  
Mark Anderson-Wilk, editor

## HOME FRONT

- 130A A very good year**  
Craig A. Cox, executive director of the Soil and Water Conservation Society

## VIEWPOINTS

- 131A Conservation issues of yesterday, today, and tomorrow**  
Maurice G. Cook

- 133A Rising to the challenge of Hugh Hammond Bennett**  
David Sanders

## CONSERVATIONIST PROFILE

- 135A Thaler Land and Livestock, Wyoming**

## IN THE NEWS

- 136A Runoff from potato farms blamed for fish kills on Canadian island**  
Kathy Birt

## CONSERVATION IN ACTION

- 137A Heron Lake watershed conservation strip tillage demonstration**  
Melanie Luinenburg

## IDEAS &amp; INNOVATIONS

- 138A Ancient water systems provide lessons for today**  
Michael Kenneth Cowan

## FEATURES

- 139A Soils and runaway global warming: Terra incognita**  
Philippe C. Baveye

- 144A Strategies for soil conservation in no-tillage and organic farming systems**  
John R. Teasdale

## TECH TRANSFER BRIEFING

- 148A Is setting aside highly erodible cropland for carbon storage economically viable?**  
Mark Sperow

- 149A Changes in carbon storage in inland saline-alkalined wetlands**  
Junhong Bai

- 150A Phosphorus-based management challenges and strategies for poultry farming**  
Andrew N. Sharpley, Sheri Herron, and Tommy Daniel

- 151A The capacity of forested filter strips to retain sediment**  
Lawrence A. Morris

- 152A Evaluation of erosion control methods for storm water quality**  
L. Britt Faucette, Jason Governo, Carl F. Jordan, B. Graeme Lockaby, Honorio F. Carino, and Robin Governo

A look at how  
Canada's Prince  
Edward Island  
is responding to  
fish kills.

Opportunities exist for  
improving soil productivity  
using elements of both  
organic and no-till systems.

## On the Cover

Fall color of paper birch and red maple in northern Wisconsin. Photo by Steven Katovich, USDA Forest Service.

- 153A** **Predictors of field-scale variation of soil phosphorus**  
Sheilah C. Nolan, Joanne L. Little, Janna P. Casson, Frank J. Hecker, and Barry M. Olson
- 154A** **An integrated economic-hydrologic framework for evaluating environmental effects and cost effectiveness of conservation programs and management practices**  
Wanhong Yang, Alain N. Rousseau, and Peter Boxall
- 155A** **Can the Soil Conditioning Index be successfully used for semiarid, hot, sandy soils?**  
Ted. M. Zobeck
- 156A** **The profitability factor of controlled drainage implementation**  
Adela P. Nistor and Jess Lowenberg-DeBoer
- IMPLEMENTATION UPDATE**
- 157A** **Modifying erosion control structures for ecological benefits**  
F. Douglas Shields Jr., Peter C. Smiley Jr., and Charles M. Cooper
- 158A** **A model for reducing soil erosion by tillage**  
Lorenzo Borselli and Dino Torri
- APPLIED RESEARCH**
- 367** **The marginal costs of carbon sequestration: Implications of one greenhouse gas mitigation activity**  
M Sperow
- 375** **Overcoming the challenges of phosphorus-based management in poultry farming**  
A.N. Sharpley, S. Herron, and T. Daniel
- 390** **Annual distribution of rainfall erosivity in western Andalusia, southern Spain**  
L. Domínguez-Romero, J.L. Ayuso Muñoz, and A.P. García Marín
- 404** **Erosion control and storm water quality from straw with PAM, mulch, and compost blankets of varying particle sizes**  
L.B. Faucette, J. Governo, C.F. Jordan, B.G. Lockaby, H.F. Carino, and R. Governo
- 414** **Field-scale variation of soil phosphorus within small Alberta watersheds**  
S.C. Nolan, J.L. Little, J.P. Casson, F.J. Hecker, and B.M. Olson
- 423** **An integrated economic-hydrologic modeling framework for the watershed evaluation of beneficial management practices**  
W. Yang, A.N. Rousseau, and P. Boxall
- 433** **Investigation of Soil Conditioning Index values for Southern High Plains agroecosystems**  
T.M. Zobeck, J. Crownover, M. Dollar, R.S. Van Pelt, V. Acosta-Martinez, K.F. Bronson, and D.R. Upchurch
- 443** **Drainage water management impact on farm profitability**  
A.P. Nistor and J. Lowenberg-DeBoer
- 447** **Soil organic carbon contents of two natural inland saline-alkalined wetlands in northeastern China**  
J. Bai, C. Baoshan, W. Deng, Z. Yang, Q. Wang, and Q. Ding
- 453** **Sediment retention by forested filter strips in the Piedmont of Georgia**  
W.J. White, L.A. Morris, A.P. Pinho, C.R. Jackson, and L.T. West
- 464** **VOLUME 62 (2007) INDEX**

Printed on 100% recycled paper  
with vegetable-based inks.
