CONTENTS

Features

134  Editorial: Why a special issue?
     By Max Schnepf

136  Viewpoint: Why conservation tillage?
     By Peter C. Myers

140  What is conservation tillage?
     By Jerry V. Mannering and Charles R. Fenster

144  Conservation tillage for erosion control
     By W. C. Moldenhauer, G. W. Langdale, Wilbur Frye,
       D. K. McCool, R. L. Papendick, D. E. Smika,
       and D. William Fryrear

152  Soil suitability for conservation tillage
     By Harold R. Cosper

156  Conservation tillage use
     By Lee A. Christensen and Richard S. Magleby

158  Sharing conservation tillage information
     By James E. Lake

160  Progress in no-till
     By Arnold D. King

162  Obstacles to adoption of conservation tillage
     By Peter J. Nowak

166  Land tenure and adoption of conservation tillage
     By Linda K. Lee

169  Selling conservation tillage

182  Equipment modification and innovation for conservation tillage
     By D. C. Erbach, J. E. Morrison, and D. E. Wilkins

186  Water quality consequences of conservation tillage
     By J. L. Baker and J. M. Laflen

194  Weed control: A panel discussion

201  Problems with conservation tillage
     By Maureen K. Hinkle

207  Energy implications of conservation tillage
     By William Lockeretz

212  Conservation tillage impacts on wildlife
     By Randy D. Rodgers and James B. Wooley

214  Legumes as a cover crop and source of nitrogen
     By G. W. Martin and J. T. Touchton

217  Legumes in conservation tillage systems: A research perspective
     By J. F. Power, R. F. Follett, and G. E. Carlson

219  Conservation tillage in Appalachia
     By J. N. Jones, Jr., H. D. Perry, E. L. Mathias, M. C. Carter,
       R. J. Wright, J. L. Herr, and O. L. Bennett

222  No-till pasture renovation
     By L. R. Vough and A. M. Decker

224  Insect and slug pests in forage legume seedlings
     By R. A. Byers, R. L. Mangan, and W. C. Templeton, Jr.

227  Conservation tillage for forage Brassicas
     By Gerald A. Jung, Willis L. McClellan, Robert A.
       Byers, Robert E. Kocher, Lynn D. Hoffman, and
       Harold J. Donley

231  Wide beds with conservation tillage
     By John E. Morrison, Jr., and Thomas J. Gerik

233  Irrigation + dryland farming + limited tillage: A profitable combination
     By Allen F. Wiese and Paul W. Unger

237  Conservation tillage for wind erosion control
     By John A. Knapp

239  Atrazine carryover in conservation tillage systems
     By D. E. Smika and E. David Sharman

240  Conservation tillage in small grain production
     By John D. Walker

244  STEEP, an interagency, multidisciplinary approach to soil conservation
     By Robert E. McDole and Stephen A. Reinertsen

246  Fertilizer placement: A primer
     By Larry Murphy
To advance the science and art of good land use

250
Fertilizer placement for cereal root access
By Betty Klepper, Paul E. Rasmussen, and Ron W. Rickman

253
Conservation tillage in Ontario
By J. W. Ketcheson and D. P. Stonehouse

255
Changing farmer attitudes: An Ontario experience
By Jane Sadler Richards

258
Farmer experience with conservation tillage

267
Conservation tillage: Where to from here?
By Jerry C. Ritchie and Ronald F. Follett

281
Factors affecting farmers' adoption of conservation tillage
Gordon L. Bultena and Eric O. Hoiberg

284
Conservation tillage in an Iowa county
Betty L. Wells, Timothy O. Borich, and Jack D. Frus

287
Impact of tenure status on economic incentives for conservation tillage
Herbert R. Hinman, Steve G. Mohasci, and Douglas L. Young

291
Economics of conservation tillage in Iowa
Robert W. Jolly, William M. Edwards, and Donald C. Erbach

294
Economics of conservation tillage systems for winter wheat production in Oklahoma
Francis M. Epplin, Thomas F. Tice, Steven J. Handke, Thomas F. Peper, and Eugene G. Krenzer, Jr.

297
Soil and nutrient runoff losses with in-row, chisel-planted soybeans

301
Influence of conservation tillage on soil properties
R. L. Blevins, M. S. Smith, G. W. Thomas, and W. W. Frye

305
Conservation tillage for long-term amelioration of plow pan soils

307
Soil compaction constraints on conservation tillage in the northern Corn Belt
W. B. Voorhees and M. J. Lindstrom

312
Residue management and cultural practices for a semiarid region
J. D. Bilbro and D. W. Fryrear

315
Long-term annual runoff and soil loss from conventional and conservation tillage of corn
Robert E. Burwell and Larry A. Kramer
