Allan Savory discusses his goals to farm price support converting thousands of acres of rangeland to cropland.

226 Land use and soil loss: A 1982 update
Linda K. Lee summarizes preliminary data from the 1982 National Resources Inventory.

229 Will agricultural program consistency save more soil?
Katherine Reichelderfer looks at the possibilities for tying conservation goals to farm price support and other program benefits.

232 Why the great Colorado plowout?
Paul C. Huszar and John E. Young probe the motives of those converting thousands of acres of rangeland to cropland.

235 Rangeland revolutionary
Allan Savory discusses his principles of Holistic Resource Management.

241 Microcomputer delivery of soil survey information
R. L. Cunningham, G. W. Petersen, and C. J. Sacksdeter describe the use of microcomputers to assemble soil maps.

244 Scoring a conservation tillage contest
Kevin Adelman describes how two Minnesota conservation districts set up a contest to help farmers learn to use their conservation tillage tools.

246 The gullies of Imo
G. E. Osuji gives an insider's view of the spectacular gully erosion in one region of Nigeria.

248 Commentary: Farmland preservation: Playing political hardball
Charles E. Little looks at the Reagan Administration's hesitancy to implement the Farmland Protection Policy Act.

250 Commentary: Cross-compliance: Is it bold, menacing or just plain dumb?
Ken Cook analyzes the merits of tying conservation objectives to farm program benefits.

255 Sediment trap efficiency of a small reservoir
F. E. Dendy and D. M. Cooper.

261 An improved soil erosion classification for conservation policy
Ralph E. Heimlich and Nelson L. Bills.

266 Farm-level impacts of mandatory soil erosion standards
David E. Ervin, Joseph P. Bryant, and Gary L. Stempley.

270 Agricultural capability classification of pre- and post-mined landscapes in the northern Great Plains
William M. Schafer.

273 Discount-rate and commodity-price-change effects on compensation to farmers for adopting soil conservation practices
Gary V. Johnson, Bartelt Eleved and Parveen P. Setia.

Research reports

The Soil Conservation Society of America is dedicated to promoting the science and art of good land use, with emphasis on conservation of soil, water, air, and related natural resources, including all forms of beneficial plant and animal life. To this end, SCSA seeks to advance the Journal of Soil and Water Conservation and other programs to educate the public and assist them in using and enjoying these natural resources forever.

OFFICERS

President
Floyd E. Helt, Columbus, Ohio

Vice-president
Roland R. Willis, Stillwater, Okla.

Past-president
Joe O. Nichols, Ft. Worth, Texas

Second Vice-president
Maurice G. Cook, Raleigh, N.C.

Past-president
Chris J. Johannsen, Columbia, Mo.

Treasurer
Dennis A. Nahmies, Des Moines, Iowa

Executive Vice-president
Walt Peesche.

COUNCIL

Eimer E. Offerman, Storrs, Conn.

Charles B. Place Jr., Macon, Ga.

Michael O. Cornett, Cullman, Ala.

Paul B. Hopkins, Cleveland, Ohio

Thomas J. Thiel, Peeoria, Ill.

Norris P. Swanson, Lincoln, Neb.

Charles M. Thompson, Temple, Tex.

Amos G. Garrison, Meridian, Idaho

David R. Grossman, Kitchener, Ont.

Tracy E. Kiingman, Stillwater, Okla.
