

**CONTENTS****Features****68****Viewpoint: Is professionalism really definable?**

Daniel A. Poole outlines what personal and group commitments are required to earn the label of "professional"

**70****Conservation targeting: Success or failure?**

James Nielson evaluates the targeting approach to soil conservation and offers 10 recommendations for improvement

**77****The conservation reserve: Potential impacts and problems**

David E. Ervin and Melvin G. Blase assess what the new conservation reserve may mean for soil and water conservation

**81****A state and federal partnership for soil and wildlife conservation**

Robert D. Miller, David L. Urich, and Russell C. Mills describe a Missouri effort to link on-farm soil conservation with wildlife habitat improvement goals

**85****Water quality and the new farm policy initiatives**

Clayton W. Ogg and Harry B. Pionke discuss what impacts some of the conservation provisions in the new farm bill might have on water quality management

**89****Prime agricultural land protection: Washington State's experience**

John P. Reganold reviews the diversity of programs used in one state to keep top-grade farmland in crop production

**93****Commentary: Pinch me, I must be dreaming!**

Ken Cook offers a first-hand look at the evolution of the conservation title in the new farm bill

**94****Commentary: The soil conservation imperative: Past versus present**

Melville H. Cohee opines why more progress has not been made in soil and water conservation

**Departments****66****Pen points****97****In the news****103****Professional services****103****Classified advertising****104****Upcoming****105****Books, etc.****136****The SCSA view****Research reports****109****Environmental concern and the adoption of farm technologies**

Ted L. Napier, Silvana M. Camboni, and Cameron S. Thraen

**113****Evaluation of the topographic factor in the universal soil loss equation on irregular slopes**

C. D. Castro and T. M. Zobeck

**117****A field dust sampler**

D. W. Fryrear

**120****Springtime evaporation from bare and stubble-covered soil**

L. J. Brun, J. W. Enz, J. K. Larsen, and C. Fanning

**122****Spring runoff retention in prairie pothole wetlands**

Daniel E. Hubbard and Raymond L. Linder

**126****Geomorphic impacts of horse traffic on montane landforms**

Rebecca M. Summer

**128****Corrosion of corrugated galvanized steel in conservation structures**

T. J. Moore, C. T. Hallmark, G. Chervenka, D. Henry, and D. Garner

**131****Influence of mesquite control on soil erosion on a depleted range site**

Donald J. Bedunah and Ronald E. Sosebee
