

**CONTENTS****Features****222****Viewpoint: A new nonpoint-source water pollution control challenge**

Carl F. Myers says states will play a key role in making the most of opportunities under the Water Quality Act of 1987

**224****Sustaining Africa's natural resources**

Mohamed T. El-Ashry and Bonnie J. Ram review why an integrated approach to agriculture, forestry, and rural development is needed to solve land use problems in Africa

**228****The greening of Sudbury**

William E. Lautenbach takes a look at how this Ontario community has created a new environmental image by attacking land reclamation problems

**232****Do land markets account for soil conservation investment?**

Richard Barrows and Kent Gardner suggest that the value of soil conservation practices often is not reflected in agricultural land prices

**237****Windbreaks: A Plains legacy in decline**

Peter R. Schaefer, Sheridan Dronen, and David Erickson summarize the state and importance of trees on the Great Plains

**239****A national soil erosion survey for Zimbabwe**

Richard Whitlow offers details of the first-ever assessment of soil loss in this African country

**243****The extent and costs of groundwater contamination by agriculture**

Linda K. Lee and Elizabeth G. Nelson analyze the potential threats to the environment and human health from groundwater contamination

**249****Commentary: On loving the land**

Charles E. Little reflects on the American idea of land

**250****Commentary: A good (or bad) land use decision on zoning**

Warren Zitzman says a U.S. Supreme Court ruling may effect the future of unbridled zoning laws

**Departments****218****The SCSA view****220****Pen points****252****In the news****259****Professional services & classifieds****261****Upcoming****262****Books, etc.****Research reports****265****Erosion control: How does it change farm income?**

John Putman and Klaus Alt

**267****Crossplanting winter wheat reduces potential wind erosion of soil in semiarid regions**

J. D. Bilbro

**269****Precipitation effects on ridges created by grain drills**

Leon Lyles and John Tatarko

**271****Assessment of an agricultural drainage improvement program in New York State**

Richard A. Malecki and James D. Sullivan

**274****Reforestation reduces streamflow in the southeastern United States**

Stanley W. Trimble and Frank H. Weirich

**277****Corn and soybean response to topsoil replacement and irrigation on surface-mined land in western Illinois**

R. E. Dunker and I. J. Jansen

**281****Metropolitan farmer's response to the dairy termination program**

William Lockeretz

**285****Implementation of the conservation provisions in the 1985 farm bill: A survey of county-level U.S. Department of Agriculture personnel**

Pete Nowak and Max Schnepf

**291****Streambank stability and cattle grazing in southwestern Montana**

Clayton B. Marlow, Thomas M. Pogacnik, and Shannon D. Quinsey

**Cover:** Wheat harvest on the contour, an original oil painting by the late Felix Summers, who worked as national illustrator for the Soil Conservation Service. The painting hangs in the reception area of SCSA's international headquarters. See page 254.

*Journal of Soil and Water Conservation* (ISSN 0022-4561) is published six times a year in January, March, May, July, September, and November by the Soil Conservation Society of America, 7515 N.E. Ankeny Road, Ankeny, Iowa 50021-9764. Second class postage paid at Ankeny, Iowa, and additional mailing offices.
