Features

360  Viewpoint: Building constructively on the Conservation Title
Tony Vrana discusses the importance of striking a balance in assessing the Conservation Title

362  The environmental era of U.S. agricultural policy
Ken Cook suggests that the 1990 farm bill represent a new social contract between farmers and the public

367  Implementing the Conservation Title
Christine A. Ervin examines the diverse research on the Conservation provisions

371  The Conservation Title: Concerns and recommendations from the Great Plains
B. L. Harris, J. N. Habiger, and Z. L. Carpenter outline proposals from the Great Plains Agricultural Council

376  Federal farm policy and water quality
Stephen R. Crutchfield presents possible new water quality initiatives

379  Planting flexibility: Implications for groundwater protection?
Ian McCormick and Kenneth A. Algozin focus on how the conservation provisions may affect use of fertilizers and pesticides

384  Agricultural policy and aesthetic objectives
Joan Iverson Nassauer looks at conservation practices with a different eye

388  Improving government farm programs for limited-resource farmers
E. Demissie says this group of farmers must be better informed about the new conservation provisions

392  Reaching for soil conservation's ultimate goals in Indiana
David T. Cooper and Robert V. Bollman review Indiana's T by 2000 program

395  Conservation planning: Group versus individual approaches
Thyrle Robertson, Gerald Root, and Karl Reinhardt look at the pros and cons of different planning methods

399  Workshops for integrating resource management and agricultural production
Richard L. Farnsworth, Raymond J. Herman, and Robert D. Walker explain one method of conservation planning

403  Coordinated resource management and planning: The case of the Missouri Flat Creek watershed
Douglas Osterman, Frederick Steiner, Theresa Hicks, Ray Ledgerwood, and Kelsey Gray relate how the CRMP process was used to prepare conservation plans

407  A lesson in interagency cooperation
James Lindstrom and James B. Johnson look at the cooperative nature of planning used in Montana

409  What affects progress in conservation compliance planning?
The Missouri experience
J. Sanford Rikoon and William Heffernan report the results of a survey on how local conservationists view the planning process

415  How goes conservation compliance in Mississippi?
L. Pete Heard and Paul W. Dillard outline special problems overcome in Mississippi

417  Land management effects on innate soil erodibility: A potential complication for compliance planning
Philip J. Gersmehl, Byran Baker, and Dwight A. Brown suggest that looking at management-induced changes in erodibility may be helpful in targeting conservation programs

421  CRP: What economic benefits?
Marc O. Ribaudo, Steven Piper, Glenn D. Schaible, Linda L. Lagner, and Daniel Colacicco calculate that a fully implemented CRP would generate $10 billion in natural resource benefits

425  Marketing the Conservation Reserve Program
J. Dixon Esseks and Steven E. Kraft evaluate the success USDA has had in informing producers about this program

431  CRP: A Baca County, Colorado perspective
Stephen O. Myers and P. Lorenz Sutherland review the CRP in a county where sign-up has been high

437  Forestation and the CRP
John Mixon and Larry Thompson tell why Georgia leads the nation in tree planting on CRP acres

438  Wildlife management on Conservation Reserve Program land: The farmer's view
Edwin J. Miller and Peter T. Bromley look at farmers' understanding of the wildlife benefits of the CRP

441  How some potential CRP participants were taught to bid and ensuing land market distortions
James B. Johnson and Richard T. Clark analyze the CRP bidding process used in two states

445  Beyond swampbuster: A permanent wetland reserve
Ralph E. Heimlich, March B. Carey, and Richard J. Brazee present some alternatives for protecting America's wetlands

Commentary

451  Building a conservation-centered farm policy
Rudy Boschwitz, Clifton Anderson, and Brad Anderson suggest that Congress must restructure farm policy
Cross compliance and water quality protection
David G. Abler and James S. Shortle question if cross compliance is the best way to protect water quality

Clean water, clear choices: An action agenda for American agriculture
Robert Wetherbee says improving water quality will take a major commitment by the federal government, producers, and the public

Unexpected consequences of the Food Security Act
Jim Jacobs outlines some lessons to be learned from the 1985 farm bill

Conservation compliance: What soil loss with what level of farm income impact?
James B. Johnson and Edward Thompson Jr. say the record on conservation systems falters to save any farmers or land

FmHA conservation easements-for-credit program fails to save any farmers or land
Edward Thompson Jr. says the record on conservation easements is a failure

Dear Mr. Secretary
J. D. Hair challenges USDA's figures on swampbuster enforcement

An economic analysis of conservation tillage systems under the conservation provisions of the 1985 farm bill
Peter S. Berthelsen, Loren M. Smith, and Charles L. Coffman

Soil conservation as a goal among farmers: Results of a survey and cluster analysis
Steven E. Kraft, Paul L. Roth, and Angela C. Thielen

Shock groundwater standard for the 1990 farm bill
W. L. Magette, R. A. Weismiller, J. S. Angle, and R. B. Brinsfield

Landowner characteristics and the economic impact of the Conservation Reserve Program in North Dakota
Timothy L. Mortensen, F. Larry Leistritz, Jay A. Leitch, Randal C. Coon, and Brenda L. Ekstrom

Factors affecting tree planting by landowners under the CRP: southern Illinois, 1986-1987
Cynthia J. Olmstead and Dwight R. McCurdy

Farmers' response to a filter strip program: Results from a contingent valuation survey
Amy Purvis, John P. Hoehn, Vernon L. Sorenson, and Francis J. Pierce

CRP land and game bird production in the Texas High Plains
Peter S. Berthelsen, Loren M. Smith, and Charles L. Coffman

CRP effects on Montana's economy
James E. Standaert and H. Arlen Smith

Socioeconomic characteristics of participants in the CRP: Texas High Plains
Michael L. Hatley, R. Terry Ervin, and Bob Davis

Participation in the CRP: Implications of the New York experience
David Force and Nelson Bills

National implications of mandatory conservation compliance
Leland C. Thompson, Jay Dee Atwood, S. R. Johnson, and Thyrele Robertson

Costs and implications of conservation compliance
Wen-yuan Huang

Economic impacts of conservation compliance on a representative Dawson County, Texas, farm
James W. Richardson, Delton C. Gerloff, B. L. Harris, and L. L. Dollar

Net returns from conservation compliance for a producer and landlord in northeastern Kansas
John S. Hickman, Colin P. Rowell, and Jeffery R. Williams

Implementing the conservation provisions in the 1985 farm bill: A follow-up survey of county-level U.S. Department of Agriculture agency personnel
Pete Nowak and Max Schnepf

Measurement of residue cover with dot screens
John E. Morrison, Jr., F. Wesley Chichester, and David E. Escobar
