Viewpoint: Informing the groundwater policy debate

Charles W. Abdalla, Verlon K. "Tony" Vrana, and Marty Jessen

170

Groundwater contamination in the United States

David W. Moody

180

The costs of groundwater contamination

William B. O'Neil and Robert S. Raucher

184

Agricultural chemicals and groundwater quality

Herman Bouwer

190

A public policy perspective on groundwater quality

Lawrence W. Libby

194

Key policy choices in groundwater quality management

Sandra S. Batie and Penelope L. Diebel

198

Communicating water quality risk

Clifford W. Scherer

201

Agricultural best management practices and groundwater protection

Terry J. Logan

207

Protecting groundwater quality by managing local land use

Douglas A. Yanggen and Stephen M. Born

211

Liability issues in groundwater quality protection

Theodore A. Feitshans

216

Blameless contamination: New state legislation regulating liability for agricultural chemicals in groundwater

Terence J. Centner

221

Farmer liability for pesticide contamination of groundwater in Connecticut

Linda K. Lee and Robert L. Leonard

223

Informational needs for local groundwater management decisions

Norbert Dee and Marian Mlay

226

A comprehensive approach to groundwater management for rural local governments

E. Gaynell McGary Meij and Charles W. Abdalla

230

Groundwater quality assessment through cooperative private well testing: An Ohio example

David B. Baker

236

Farmstead assessments: A strategy to prevent groundwater pollution

Susan A. Jones and Gary W. Jackson

239

Prescription planning: An approach to nonpoint pollution problems

C. Gregg Carlson, Roger Dean, and Gary Lemme

242

A GIS-based approach to evaluating regional groundwater pollution potential with DRASTIC

Barry M. Evans and Wayne L. Myers

246

A geographic information system for groundwater protection planning

Carol Pringle Baker and Ernest C. Panciera

249

Environmental regulation of agriculture in Arizona

Brian E. Munson and Carrol Russell

253

Agricultural chemicals in groundwater: Monitoring and management in California

Douglas M. Mackay and Lynda A. Smith

Case studies

256

Extension's role in Virginia's groundwater protection strategy

Waldon R. Kerns

257

Clarke County, Virginia's innovative response to groundwater protection

G. Robert Lee and Thomas J. Christoffel

259

An integrated approach to water resources management: The Carroll County, Maryland, story

Paula S. Thomas

261

Cooperation as a policy initiative in Utah

R. Peralta and A. Peralta

263

Special protection areas: A new nonpoint-source management option in Nebraska

Richard L. Ehrman, Martha L. Link, and Jeffrey J. Gottula

264

Implementation issues in special groundwater quality protection areas

J. David Aiken

265

Groundwater quality management in Nebraska's central Platte Valley

R. B. Ferguson and M. Moravek

266

Rural residential development: Evolution of a septic system regulatory program

Richard J. Perkins and Patrick Hanson

268

Michigan groundwater survey: A cooperative venture of local governments

Donald J. Brown

Journal of Soil & Water Conservation

To advance the science and art of good land and water use worldwide

270

Local governments cooperating to protect groundwater

Marilyn D. Lundberg

271

Difficulties confronting an agricultural pesticide waste collection program in Wisconsin

Rita M. Kozak and Ed Hass

272

Coordinated groundwater protection in Hebron, Connecticut

Jim Murphy

273

Stormwater runoff policy on the Spokane/Rathdrum Prairie Aquifer

Edgar O. Hale

274

Wastewater disposal at fruit and vegetable packing facilities in Dade County, Florida

Dennis F. Howard, Sue M. Alspach, and Nancy D. Stevens

Commentary

277

Until we know the answers: Policy principles to guide us

John J. Waelti

278

Working toward rural groundwater policies for the 1990s

Dennis Murphey

280

Needed: More federal involvement in water quality protection

Kathleen M. Painter and Douglas L. Young

282

Management principles for overworked and understaffed groundwater specialists

Peter J. Pizor

285

Addressing groundwater quality in the 1990 farm bill: Nitrate contamination in the Atlantic Coastal Plain

R. B. Brinsfield and K. W. Staver
