November-December 1990
Volume 45, Number 6

Journal of Soil & Water Conservation

To advance the science and art of good land and water use worldwide

CONTENTS

Features

598

Viewpoint: Solutions to water quality problems: USDA's role

Harry C. Mussman outlines the water quality strategy developed by USDA agencies

600

Growth management: A renewed agenda for states

Gordon Meeks, Jr. looks at elements of state growth management and comprehensive planning acts

605

Urban stormwater infiltration: Purposes, implementation, results

Bruce K. Ferguson says research on stormwater infiltration in the last five years has vastly clarified use of this technique to control storm flows

610

Reducing agricultural pesticide use in Sweden

Anne C. Weinberg reports on the successful efforts by the Swedish government and its farmers to cut pesticide use in half

614

Water resource planning in Canada

Tom McMillan contends that water is Canada's most undervalued and most neglected resource

617

Using LESA in a purchase of development rights program

Tom Daniels tells how a well-designed Land Evaluation and Site Assessment system can be used in a PDR program

622

The dynamics of declining soil erosion rates

Linda K. Lee analyzes sheet and rill erosion changes that have occurred between the 1982 and 1987 National Resources Inventories

Commentary

625

On stewardship ethics among land managers

James W. Giltmier challenges land managers to reexamine their goals and take leadership roles in selling the conservation movement

626

The 1990 RPA: A Forest Service pathway through the 1990s and beyond

F. Dale Robertson sets down this agency's program direction for multiple resource management of national forest system land during the next half century

Research reports

641

Estimating soil erosion after 100 years of cropping on Sanborn Field

C. J. Gantzer, S. H. Anderson, A. L. Thompson, and J. R. Brown

645

An indoor soil erosion research facility

B. N. Wilson and C. T. Rice

648

Cropping and tillage options to achieve erosion control goals and maximum profit on irregular slopes

A. J. Jones, R. A. Selley, and L. N. Mielke

653

Grazing reclaimed mined land seeded to native grasses in Wyoming

G. E. Schuman, D. T. Booth, and J. W. Waggoner

657

Structure of a black plug layer in a turfgrass putting sand green

D. R. Cullimore, S. Nilson, S. Taylor, and K. Nelson

660

Effects of past erosion on the interill erodibility of a fragipan soil

F. E. Rhoton, L. D. Meyer, and D. D. Tyler

663

Apparent geographic and atmospheric influences on raindrop sizes and rainfall kinetic energy

G. F. McIsaac
