

JOURNAL OF SOIL AND WATER
Conservation

FOURTH QUARTER 1998

VOLUME 53, NUMBER 4

RESEARCH

- 312 Site-specific crop management with a center pivot**
C. R. Camp and E. J. Sadler
- 315 Homeowner perceptions and management of private water supplies and wastewater treatment systems**
J.J. Schwartz, A.B. Waterman, A.T. Lemley, L.P. Wagenet, P. Landre, and D.J. Allee
- 320 Do participants in well water testing programs update their exposure and health risk perceptions?**
G.L. Poe, H.M. van Es, T.P. VandenBerg, and R.C. Bishop
- 325 Polyacrylamide effects on infiltration in irrigated agriculture**
R.E. Sojka, R.D. Lentz, C.W. Ross, T.J. Trout, D.L. Bjorneberg, and J.K. Aase
- 332 NLEAP facts about nitrogen management**
J.A. Delgado, R.F. Follett, J.L. Sharkoff, M.K. Brodahl, and M.J. Schaffer
- 338 New NLEAP for shallow and deep rooted rotations**
J.A. Delgado, M. Shaffer, and M.K. Brodahl
- 341 Water conservation and economic impacts when integrating irrigation with no-tillage**
W.L. Harman, G.C. Rejier, A.F. Wiese, and V.D. Lansford
- 347 Wind speed above and within sunflower stalks varying in height and population**
D.C. Nielsen and R.M. Aiken
- 353 Awareness of operation future among landowner-operators in the Darby Creek Watershed of Ohio**
T. L. Napier and E. J. Johnson

DEPARTMENTS

- 298 Guest Editorial**
- 300 Commentary**
- 305 Executive Summary**
- 307 Books, etc.**
- 309 Upcoming**
- 358 Index volume 53**

Cover

Barley (*Hordeum vulgare* L.) grown under center pivot sprinkler irrigation in the San Luis Valley of south central Colorado. Photo by Dr. Jorge A. Delgado, USDA-ARS-NPA-Soil Plant Nutrient Research Unit
