

JOURNAL OF SOIL AND WATER CONSERVATION

MARCH | APRIL 2005

33A

DO EROSION CONTROL AND SNAKES MESH?

Wildlife—specifically snakes—need to be considered when using erosion control products.

By Christopher Barton and Karen Kinkead

36A

THE VALUE OF CARBON CREDITS

An overview of the idea of using carbon credits to mitigate atmospheric greenhouse gases and to market these carbon credits to industry.

By Jeffery R. Williams, Jeffrey M. Peterson, and Sian Mooney

41A

GETTING CONSERVATION ON THE LAND USING GIS

This conservation district has tips on taking the information available from several resources and using geographic information systems to serve and help plan for the landowner.

By Sharyl Walker and Leon Wendte
