Table of Contents

A SECTION

ISSUE INTRODUCTION

Climate change impacts on soil, water, and biodiversity conservation
Jean L. Steiner, Xiaomao Lin, Nancy Cavallaro, Georgia Basso, and Gretchen Sassenrath

FEATURES

Sustainable and regenerative agriculture: Tools to address food insecurity and climate change
Rachel E. Schattman, Diane L. Rowland, and Sara C. Kelemen

Climate and pest interactions pose a cross-landscape management challenge to soil and water conservation
Joshua W. Campbell, Michael R. Fulcher, Brenda J. Grewell, and Stephen L. Young

Environmental justice, climate change, and agriculture
Andrew P. Manale

VIEWPOINT

Global connections: A case for international perspectives
Nancy Cavallaro

The urgent need for action
Jean L. Steiner

A SECTION Call for Papers

Are you working on cutting edge research in soil and water conservation? Does your work involve new tools, technologies, or materials that others should be aware of? Have you observed or been a part of conservation practices that are worth sharing with the journal audience?

If you answered “Yes” to any of these questions, you are invited to submit your article ideas for the A Section of the Journal of Soil and Water Conservation.

Your work could be published in one of the A Section topic areas: Conservation in Practice, Viewpoint, Ideas & Innovations, Conservation in Action, In the News, Feature, etc.

To submit your article ideas or for more information, contact editor Annie Binder at annie.binder@swcs.org
**RESEARCH SECTION**

**RESEARCH EDITORIALS**

95  
**Invasive annual grasses—Reenvisioning approaches in a changing climate**  

104  
**How resilient are US rangeland ecosystems?**  
J.R. Brown

111  
**Recent advances in feed additives with the potential to mitigate enteric methane emissions from ruminant livestock**  
L. Kelly and E. Kebreab

**RESEARCH**

124  
**Soil organic carbon and nitrogen storage estimated with the root-zone enrichment method under conventional and conservation land management across North Carolina**  
A.J. Franzluebbers

141  
**Nitrate losses from Midwest US agroecosystems: Impacts of varied management and precipitation**  
D. Shrestha, K. Masarik, and C.J. Kucharik

154  
**Influence of gypsum and cover crop on greenhouse gas emissions in soybean cropping systems**  

163  
**Compost amendment to enhance carbon sequestration in rangelands**  
S. Kutos, E. Stricker, A. Cooper, R. Ryals, J. Creque, M. Machmuller, M. Kroegar, and W.L. Silver

178  
**Cropping system drives microbial community response to simulated climate change and plant inputs**  
S.L. Bell, A.E. Zimmerman, and K.S. Hofmockel

193  
**A framework to estimate climate mitigation potential for US cropland using publicly available data**  

**The Journal of Soil and Water Conservation is online.**

**AUTHORS**  
Please submit manuscripts using the online manuscript review system.
