JOURNAL OF SOIL AND WATER CONSERVATION

The science and art of natural resource management for sustainability

The *Journal of Soil and Water Conservation* is published six times per year by the Soil and Water Conservation Society for its members and the public. The Society is a private, nonprofit, scientific and educational organization with over 2,200 members. The Journal, published for over 75 years and available in print and online, is recognized as a leading source of conservation research, practice, policy, and perspectives. It is delivered to over 300 libraries worldwide, and each issue receives over 25,000 points of contact.

Audience and Benefits

Our readers have expertise in the following areas: erosion and sediment control, agronomy, nonpoint source pollution, watersheds, environmental quality, soil and water conservation, GIS, GPS, conservation education, ecosystems, precision conservation, irrigation, cover crops, range management, sustainable agriculture, forestry, floodplains, farmland preservation, soil science, and wetlands restoration.

By advertising in the *Journal of Soil and Water Conservation* you will

- Reach a targeted audience of industry professionals and decision-makers. These researchers, practitioners, and policy-makers are looking for products to use and recommend in their businesses and fieldwork.
- Gain credibility through ad placement beside peer-reviewed research and the latest advances in conservation practices.
- Receive attention from a diverse group of stakeholders. As a multidisciplinary, international publication, the Journal is read by top professionals in many conservation and agronomy-related fields.
