* Subscriber Types:

Membership to the Soil and Water Conservation Society includes a subscription to the *Journal of Soil and Water Conservation*. Members may select either a print subscription or an online subscription as part of their membership, or they may select subscriptions to both print and online for an additional amount. The member online subscription allows only one individual to access the online journal using an individual username and password.

Individual Subscriptions are for individuals and organizations that are not university/college libraries. Individual subscriptions with the online option allow only one individual to access the online journal using an individual user name and password.

Institutional Subscriptions are specifically for educational institutions (colleges and universities). Institutional online subscriptions require a librarian or other contact person to enter organizational IP addresses that will be used for authentication. Organizations not meeting this educational institution definition wishing to provide multiple people online access to the journal should consider separate individual subscriptions or memberships for each person.

Subscription Agent Discounts

Subscription agents receive a \$5 discount for individual subscriptions and institutional print subscriptions or a \$15 discount for institutional online subscriptions and institutional print + online subscriptions.

Backdated Subscriptions

Backdated subscriptions of over six months (after July 1, 2022) will include an additional \$10 handling fee.

Issue Claims

Claims for missing or damaged issues should be made within six months of publication. Each claimed issue will be shipped once. Issues missing after six months or claimed for a second time can be purchased for \$30/issue and shipping costs. Please contact memberservices@swcs.org with claims.
